# CORYS MT. MAUNGANUI – BBQ BREAKFAST & PRODUCT SHOW

The Waikato area TransNet Team held a BBQ Breakfast and Product Show at Corys Mt Maunganui, on Thursday October 27th, 2011. Featured products for this event from the extensive TransNet range included Ecolight LED floodlights, a comprehensive range of Metrel, Gossen Metrawatt and Fluke Test and Measurement instruments, ETI RCBOs/Surge, Stainless Steel Enclosures, Raychem Heatshrink Glands and Gel Ports.

**All products on show were received with good interest and enthusiasm – with particular emphasis on the TransNet Ecolight LED range.**

The test and measurement range, Raygel cold applied products and ETI circuit protection also proved popular. All the LED products from the 5W DC, the high/low bay fitting, 140W AC flood, 400W AC flood and the red coloured 40W lights proved real draw cards. A Raygel cover + mechanical connection circuit in a fish tank of water was set up powering an LED on a telescopic stand and was also very interesting to those attending.

Thank you to all those who took the time to attend and also a big thank you to David Milne (Branch Manager), Paul Blackmore (Business Development Manager) and Daniel Samuelson (2IC/Inventory Controller) for hosting the event and for their continued support of TransNet NZ Ltd. Also thanks to Gareth for his efforts on the BBQ!
