Utilux Cable Strippers

#118 Cable Stripper & Cutter

Self adjusting wire cutter stripper.

RANGE.....0.2-6mm²

LENGTH.....172mm

WEIGHT.....220g

Product#118

\$40.97
EXCL GST

#106 Cable Stripper

Coaxial and single conductor wire stripper.

LENGTH.....125mm

WEIGHT.....100g

Product#106

\$41.71
EXCL GST

#161 Cable Stripper

Economical cable stripper.

RANGE.....8-25mm OD

LENGTH.....135mm

WEIGHT.....100g

Product#161

\$55.80
EXCL GST

#163 Cable Stripper with Knife

Rotary action cable stripper with straight blade.

RANGE.....8-28mm OD

LENGTH.....187mm

WEIGHT.....100g

Product#163

\$69.65

MD1100 VOLTAGE & CONTINUITY TESTER

KEY FEATURES

- 12V - 690V DC and AC Voltage Range
- Data Hold Function
- LCD Display with Backlight
- Phase Rotation Measurement
- RCD Trip Test (10 - 30mA Automatic Internal Load)
- Optical and Acoustic Continuity Test
- Automatic Switch Off
- Cat IV/1000V
- Size (mm) 238 x 70 x 30
- Weight 200g

NOW
Product# MD1100
\$169.44
excl GST

MICS2099 INSTALLATION TESTER

KEY FEATURES

- Simple and easy to use
- Checks Loop testers
- Checks RCD testers
- Checks Insulation testers
- Checks Continuity Testers
- Calibration of the insulation resistance with Ut to 1000V
- Calibration of the Niederohm and conductance
- Calibration of the Schleifenimpedanz and R-S
- Calibration of the RCD (FI)-time lag test function
- Calibration of net interior impedance
- Calibration of the tension and of the frequency
- Examination of the PE test key
- Automatic polarity examination

NOW
Product# CS2099
\$495.00
excl GST

MD9030 TRMS Digital Multimeter

KEY FEATURES

- Measures temperature up to 300°C and 572°F
- Frequency measurement: up to 1MHz
- Incorrect lead connection alert
- Auto-ranging: user can switch between auto and manual ranging
- Relative zero mode: relative function for comparing the difference between signals or removing background noise
- Data Hold feature freezes the display for later view
- MAX hold feature freezes the maximum measured value
- Safe: CAT IV/300V, CAT III/600V & CAT II/1000V overvoltage protection
- Backlight: large bright 3-3/4 digits

NOW
Product# MD9030
\$259.50
excl GST

MI3100 EurotestEASI

KEY FEATURES

- Help screens: instrument comes complete with built-in help screens for referencing on site
- Online voltage monitoring: monitors all 3 voltages in real time
- Upgradable: if changes occur to the regulations, upgrades can be made to the firmware to keep the instrument up to date
- Insulation range: wide range of insulation test voltages from 100V to 1000V, reading up to 1000MΩ
- Trip Lock function: Zs (RCD) function performs a loop impedance test without tripping the RCD

NOW
Product# MD3100
\$1275.00
excl GST

RAYGEL Joint kits

- These RAYGEL joints include mechanical connectors
Some for LV straight joints, others for branch joints
- Joint sealed by snapping closed the gel filled housing around the connector
- No special tooling required to terminate
- Connectors are range taking
- Other sizes and configurations available. ex stock
- Gel is pre-cured so the completed joint can be immediately put in to service

Please contact customer service for details

PRODUCT #	DESCRIPTION	MAIN CABLE MM ²	BRANCH CABLE MM ²	DIMENSIONS WxH
RAYGEL-22-M-5	INCLUDES MECHANICAL CONNECTOR BLOCK	3-5x1.5-6	—	145x56x36

GELWRAP Wrap Around Splice Cover

TE Connectivity GelWrap sleeves quickly and conveniently insulate and seal buried electrical connections rated up to 600volts.

- Robust, yet compact design is great for harsh environments and direct burial applications
- GelWrap sleeves are equally well suited for insulation and jacket repair on damaged cables
- Simple to install – wrap and snap the sleeve on any cable in the use range, the gel in the sleeve seals on contact

GHFC Enclosures

Designed to accommodate an LV single core polymeric insulated straight or branch joint without armour up to 185mm².

Simply snap the enclosure closed over the completed joint to offer a moisture seal second to none

- UV stable impact resistant polypropylene shell
- Connectors not included

Ideal Hamilton Trade Show 26-27 July 2011

This Bi-Annual event, held over two nights - July 26 & 27 this year catered for over 300 visitors from the Waikato and Bay of Plenty regions. Ideal Hamilton hosted the event and once again TransNet was pre-

sent with not only an interactive stand but a couple of competitions and a Race Car simulator.

The Business Card draw was won by Murray Withers from Withers Electrical Ltd in Te Awamutu. Murray took away a Metrel MD9220 TRMS Clamp Meter. The winner of the heatshrink competition was Phil L'Huillier from W.E.S. Phil took away a Metrel MD1000 Voltage and Continuity Tester. The Stand prize, a Stereo system, was won by Christian Morris from Elite Business Systems.

The race car simulator generated a lot of competition, no matter how many times they tried, no one was able to knock our very own Glenn Inkster off his perch. With a time of 1:22:04 Inky was crowned the champion, just goes to show driving the real thing pays off.

The test and measurement range on show generated a lot of interest, and we're already booked in to do some heatshrink demonstrations around the Waikato and Bay of Plenty in the coming weeks.

Thanks to everyone who attended and took the time to find out more about our extensive range of products. Also a huge thanks to Ideal for another outstanding trade show.

ECANZ CHALLENGE

The 10th anniversary of the ECANZ Challenge was the 1st for TransNet NZ Ltd as a full sponsor. Held this year in Wellington, the calibre of the finalists was, as expected, very high. As part of our sponsorship, each of the 12 finalists received tools and meters to the value of \$1600 to assist them in their careers.

The 6 commercial apprentices were given a new test this year which was to construct an inline heat shrink joint using Raychem products supplied by TransNet. Steve Breeze and Kelly Anstis, were on hand to judge this task. The quality of work over the whole competition was high as you would expect from the top 12 electrical apprentices in the country.

Logan Hanifin - Domestic/Commercial division winner

TransNet NZ Ltd are pleased to be a sponsor of this prestigious competition and look forward to next year's Challenge .

The 2011 winner of the Domestic/Commercial division was Logan Hanifin, employed by Laser Electrical, Timaru. The 2011 Industrial division winner was Paul Cook, employed by ETCO/Macell Maintenance, Whanganui.

The 2011 ECANZ Commercial/domestic & Industrial 1st, 2nd & 3rd place.
