CRIMP TOOLS

#112/1 BOOTLACE CRIMP TOOL

Bootlace Crimper - Low cost tool with a huge crimp range, for Bootlace ferrules. Ratchet control for crimp consistency, the ratchet is adjustable to compensate for tool wear.

RANGE..... 0.5 - 10mm²
 LENGTH.....203mm
 WEIGHT.....400g

Product#112/1
\$100.¹⁵ excl GST

SABC-6 DIELESS BOOTLACE CRIMPER

The Die-less Bootlace Ferrule Crimper - unique crimp action, which automatically crimps a range of terminal sizes. Insert the wire and ferrule, the tool self adjusts and crimps. Ratchet control for crimp consistency.

RANGE..... 0.25 - 6mm²

Product#SABC6
\$120.⁹⁰ excl GST

LAHB-12 CRIMP TOOL

Comes complete with two batteries, charger and handy carry case.

- Accepts standard 12T shell dies
- Light weigh design, 6.4kg
- 180° rotating head for confined spaces
- Crimp range up to 300mm² Al, 400mm² Cu
- Fast crimping action
- 120kN compression force
- Pistol grip design for comfort & control

JAW SIZE.....25mm
 DIMENSIONS.....385x380mm

Product#LAHB-12
\$4575.³⁰ excl GST

Hook n Loop

Continuous reel of back to back grip hook and loop. Reduce waste by cutting to required length onsite. Offers a secure but gentle cable support. Reusable over and over, simply open and refasten as required.

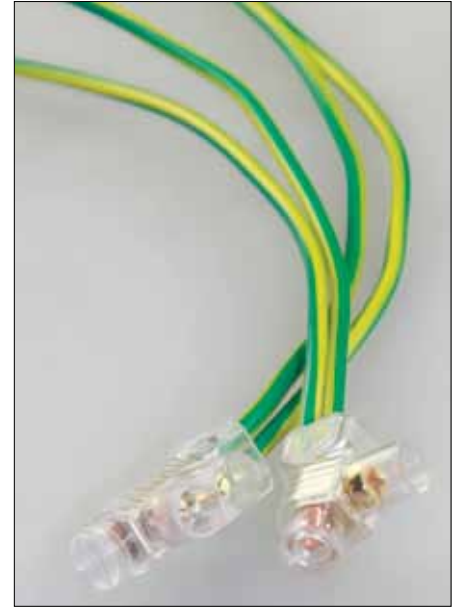

CODE	DESCRIPTION	PRICE
TNHL1225	12mm wide black hook n loop, 25m reel	\$14.90+gst
TNHL1250	12mm wide black hook n loop, 50m reel	\$19.90+gst
TNHL2025	20mm wide black hook n loop, 25m reel	\$17.50+gst

Insulated Screw Connectors

Heavy duty insulated screw connectors are available in single and double screw design (double screw for earth). Will accommodate up to 2x6mm² conductors and are rated for normal 230/240V applications. The clear plastic housing allows for a visual check of the termination.

- Nominal rating: 32amp
- Material: Brass connections, PVC body/housing
- SC1 - single screw = 100pack
- SC2 - double screw = 50pack

Product # SC1 & SC2

\$17.²⁰ EXCL GST

CABLE CLAMPS - DUTCH CLAMPS

For mounting single or multi-conductor cables, suitable for use with low, medium and high voltage cables with diameters from 28-138mm OD, as well as conduits and hoses.

- Single, Trefoil and Unfix styles available (ex stock)
- Made of glass reinforced polyamide
- UV, Oil, Ozone, Salt and Acid resistant
- Self extinguishing V-0 (UL-94), Halogen free, low smoke
- Temperature range -40°C to 120°C
- Stackable

LED FLOODLIGHT - LIGHT STANDS

The best temporary light stand ever!
No more blown lamps and excessive heat.

Totally portable, can run from vehicle lighter socket, battery or supplied power supply adapter direct into mains power. In terms of reliability, safety and versatility this light stand is the best of the best.

Product# LEDFL-PORTABLE1

\$335.00
EXCL GST

Single LED Light Stand

Product# LEDFL-PORTABLE3

\$495.00
EXCL GST

Triple LED Light Stand

FEATURES

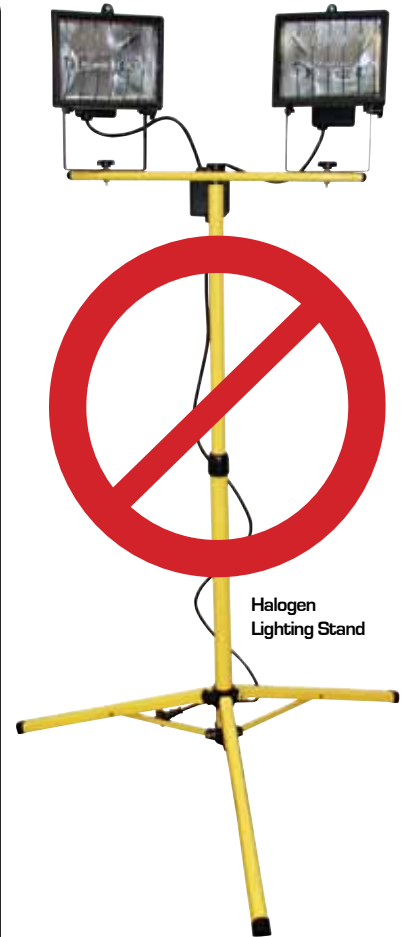

- Totally portable – run from vehicle lighter socket, battery or mains power via supplied power supply adapter
- Cool running temperature
- Rugged and not prone to vibration damage
- Telescopic stand for compact storage and transportation
- Supplied with power supply adapter to enable mains power connection
- 12m lead for versatility
- Power supply is 10-30V DC or 230V AC via power supply adapter

NEW Product

Ecolight LED Floodlight Stand

Halogen Lighting Stand

MI3125 & MI3125B EurotestCOMBO – Multifunctional Tester

MEASURING FEATURES

- Insulation resistance 50-1000V with DC Voltage
- Continuity of PE conductors with 200 mA test current with polarity change
- Loop/Line impedance with Trip Lock RCD function
- TRMS voltage and frequency
- Phase sequence
- RCD testing (general & selective, type AC, A)
- Reading up to 1000 M

KEY FEATURES

- LED pass/fail indicators
- Help screens for reference onsite
- Built in Fuse tables
- Online voltage monitoring
- Upgrades for firmware
- Automatic polarity reversal on continuity test
- Trip lock function
- Multi system testing
- Built in charger & batteries
- Automated RCD

TransNet Welcomes Phil Warwick to the Team

TransNet NZ Ltd would like to extend a warm welcome to Phil Warwick who joined the company recently.

Phil has over 30 years of employment experience in a number of roles. He is a qualified Electrical Appliance Repair Serviceman – having completed an Appliance Servicing & Repair Apprenticeship in the early 80's. He then moved into engineering for a few years. For the past 26 years Phil has worked in the automotive & motorcycle industries in several capacities – in roles including: telesales, counter sales, travelling sales, design, marketing and senior management – in both retail and wholesale environments.

Due to business expansion and workload – Phil's primary role within TransNet NZ Ltd is to assist Steve Wiggins (Wiggy) in looking after our valued wholesale outlet customers in the Waikato/BOP/Coromandel regions. Whilst he has a steep learning curve – Phil is keen as mustard and is determined to continue providing the high standard of service that Wiggy and indeed all of TransNet delivers.

Phil has travelled extensively and has lived and worked in a number of countries around the world. Phil interests include: most sports & is mad keen on all forms of motorsport – both 2 and 4 wheeled varieties. He has always had motorcycles and currently has his own tarmac rally car which he does most of the work on himself.

Phil Warwick

JA RUSSELL & FPB 2011 ELECTRICAL ROADSHOWS

22-23 August, 2011: Claudelands – Hamilton & Bay Park – Tauranga

The 3rd round of the 2011 JA Russell & FPB Electrical Roadshow for the Waikato/BOP region was held over 2 nights at Claudelands Event Centre in Hamilton on August 22nd and Bay Park Events Centre in Tauranga on August 23rd.

The TransNet stand was kept busy during set-up at the Hamilton show because a number of attending suppliers hadn't had their leads or other electrical devices tested & tagged as requested by the event management. A Metrel PAT tester in action!

Around 100 visitors attended each night of the 2 shows and there was

keen interest in our product display. Our Ecolight LED floods, Metrel test and measurement meters and ETI RCBOs proved particularly popular, especially LEDs. A couple of local Waikato electricians are really forging ahead down the LED flood road with one using them at Fonterra and the other looking at a range of our floods for a local RSA. There was also good interest in our Raychem Gel Products, mechanical connectors and Raychem Heatshrink options.

On the 2nd night of the Roadshow in Tauranga the TransNet stand also featured a Raychem Gel enclosure and mechanical connector set up submersed under water in a fish tank

and powering an Ecolight LED flood light. This certainly provided a real talking point.

A big thank you goes out to all who took the time to attend the shows and for visiting the TransNet stand to check out the small selection of our vast product range that was on display. Thanks also to the local JA Russell staff members who attended and added their support.
