PRODUCT INFORMATION

Zerust[®] ICT[™]510-SM Film is a stretch film that contains proprietary Zerust[®] ICT[™] formulations to give superior corrosion protection to large or irregularly shaped metal items and metal items bundled together.

Zerust[®] ICT[™]510-SM Film ensures superior performance due to high stretch tension, that helps the film form to irregularly shaped objects; elastic stretch memory, which assures load stability in transit; and tear resistance, which allows maintenance of a tight wrap despite heavy abrasion and random cuts. Use Zerust[®] ICT[™]510-SM Film to stretch wrap pallet loads, bundles, large items, or irregularly shaped metal items (such as gears or entire machines).

APPLICATION EXAMPLES

ZERUST[®] ICT[™]510-SM FILM USED TO PROTECT A PALLET OF GEARS FROM CORROSION DURING TRANSIT.
