

LV JUICE

DO YOU NEED VERSATILITY? TRY TUDS

Whatever the situation, we've got a solution. With a smart modular design, several Class options for lids, a wide product range, and the ability to accommodate many industries and all sorts of jobs – connections, metering, switching, fusing, and more!

SMART DESIGN

The sidewall Beam-Structure reinforces and locks the pit into the ground making it much stronger once installed. Modular design allows simple onsite adjustment to pit depth.

STRONG

The complete unit is rated to requirements of AS3996:2019 for Class B/C applications and has been tested for both top-down strength and sidewall strength. Class D rated lids available on request.

WIDE RANGE

From 300mm to 1200mm across and 300mm to 900mm deep, this range offers a solution for almost any application.

FRONTSIDE SAFETY GLASSES

The Pro Choice Safety Gear range of eye protection is ideal for protection against risks associated with a wide range of applications in both workplace and recreational environments.

FEATURES

- Certified to AS/NZS 1337.1:2010 Personal Eye Protection
- Medium impact rated.
- The FRONTSIDE TR90 Frame is extremely comfortable to wear. Highly flexible, they can bend under pressure which makes them resilient to damage.
- AQUASHIELD Permanent Hydrophilic anti-fog coatings.
- Low profile arm to aid in use with other PPE.
- Flexible arms ensure Low Clamp force reducing Temporal pressure coupled with clear side shield for increased lateral eye protection and enhanced peripheral vision.
- UV400 - 100% UV Protection (tinted lens).

TRANSNET MONTHLY GIVEAWAY SUPPORTING KIWI BUSINESSES

You loved them in winter so we've brought them back for a sweet summer treat: for this month's locally made giveaway we've gone for another delicious piece of home baking from Mummy's Yummys. The company grew out of

good old-fashioned baking in the family kitchen, and it shows in the quality of their homemade Little Caramel Bites. Indulge in a rich, gooey slice, with a brownie base combined with coconut layered with

mummysyummys.co.nz

gooey caramel and finished with a layer of chocolate. You won't be able to just stop at one!

FEATURES

Plastic release tubes allow for keyless installation

Plastic release tubes can be easily manipulated, even when wearing bulky gloves

The locking device can accommodate wire rope at up to 90 degrees, allowing it to be positioned closer to the load than other locking devices on the market, hiding it from view and creating a much more aesthetically pleasing finished product.

Arrows on the device clearly demonstrate the correct direction to push the wire

Neutral position of the spring-loaded tubes is locked, reducing likelihood of accidentally dropping an assembly during installation. This is much safer than release buttons found on some competing products that can be accidentally engaged

Two jaws grip the wire inside the device, holding the wire more securely than single-cam devices common among most competitors

Top and bottom of the locking device are symmetrical, allowing installation in either orientation

Supernova

wallbox 

Supernova is a full fast-charging solution designed under four key principles that make it profitable, easy to operate, and scalable. Available in 60, 120, & 150kW versions.

Reliability

Maximising uptime to increase revenue and customer satisfaction while reducing maintenance costs. From our product design focused on reliability and serviceability to the use of real-time data to optimise maintenance and management.

Efficiency

Deliver more power with optimal resource utilisation. Supernova is a leader in terms of energy efficiency and maximises supply by enabling two cars to charge at once, ensuring easy installation and operation.

User centricity

Thanks to our end-user understanding, gained through years of delivering home charging solutions, we provide the best possible fast charging experience. A seamless experience attracts more drivers, increases turnover and reduces customer callbacks.

Flexibility

Supernova integrates into any existing charging network and provides a futureproof solution, offering simple alternatives to increase its power as well as compatibility with today's and tomorrow's electric vehicles.

- Black (#8561) or Wheat nubuck (#1560) water-resistant leather upper safety boot — 150mm height
- 7 eyelet lace up with unique metal free, friction resistant lace rings
- Laces are manufactured from recycled PET
- Durable, heavy duty zip with industrial grade zip fastener
- New lining made from recycled PET offers moisture wicking and long lasting performance
- Streamlined TPU toe guard for added leather protection

ROTOFLEX®

#8561 UNISEX BLACK ZIP SIDED BOOTS

Biomechanically engineered for all-day comfort and safety, the black #8561 features Blundstone's new Fortalite composite toe cap for lightweight and long-lasting protection.

ROTOFLEX®

#8560 UNISEX WHEAT NUBUCK ZIP SIDED BOOTS

The pinnacle of our RotoFlex range, the wheat #8560 combines world-leading design, an all-new comfort system and composite toe protection, with the legendary durability you know and love.

METREL CLAMP RANGE

MD9250

**AC/DC CAT IV 1000V
TRMS CURRENT CLAMP**

KEY FEATURES

Auto-ranging
55mm large jaw opening
Accurate measurements on sinusoidal and non-sinusoidal signals
VFD: capable of measuring the true values in accordance with frequency

High current: 2000 A DC & AC clamp on measurement.
AutoCheck® mode provides low (ramp-up) input impedance to drain ghost voltages.
Auto-check function: automatic detection of AC voltage, DC voltage or resistance.
Transient protection up to 12 kV
Relative zero

In-rush: fast 5ms Crest-MAX mode to capture in-rush currents
Temperature up to 1000 °C or 1832 °F
Data hold function
LCD display with backlight, 3-5/6 digit, 6000 count
CAT IV / 1000 V overvoltage protection

MEASURING FUNCTIONS

TRMS AC, DC voltage & current measurements
Capacitance, resistance, frequency, & temperature measurements
Diode test
Electric field detection
Continuity test (acoustic signalling)

MD9226

**AC/DC 600A TRMS
CURRENT CLAMP**

The MD9226 has a wide range of extra features, including peak value, data and MAX hold functions, auto power off, auto-ranging and a relative zero function.

KEY FEATURES

Auto-ranging
Automatic, non-contact detection of electromagnetic fields to locate and trace live conductors
Data hold function
MIN/MAX/AVG function
Peak value
Relative zero
35mm jaw opening
CAT IV / 300 V, CAT III / 600 V overvoltage categories
LCD display with backlight, 3-5/6 digit, 6000 count

MEASURING FUNCTIONS

DC and TRMS AC voltage up to 600 V, current measurement up to 600 A
Resistance, frequency & capacitance measurements
Acoustic continuity test
Diode test

MD9272

**TRMS LEAKAGE CLAMP
WITH POWER FUNCTIONS**

KEY FEATURES

TRMS: accurate measurements on sinusoidal and non-sinusoidal signals
28mm jaw opening
Shielded Jaw allows the clamp meter to be used in the noisiest environments
AC current readings with accuracy of 0.8 % & base resolution of 0.01mA and voltage with 0.5% accuracy & base resolution of 0.01V
Various power parameters – active/reactive/apparent power/THD/PF/phase displacement
Measures current or voltage harmonic components & a percentage value up to 19th of a harmonic

Dual display for readings with Total Harmonic Distortion (THD) or Power Factor (PF)

Peak value: the peak value of the waveform or crest factor can be displayed

MAX/MIN/HOLD mode: displays maximum, minimum or average measured value

MEASURING FUNCTIONS

TRMS AC, DC voltage measurement
TRMS AC current measurement
Frequency measurement
Power parameters measurement

HEAVY DUTY INSULATED SCREW CONNECTORS

These heavy duty insulated screw connectors will accommodate up to $2 \times 6 \text{mm}^2$ conductors and are rated for normal 230/240V applications. The transparent plastic housing allows for a visual check of the termination. Available in orange single screw, or single or double screw with clear housing.

Material: Brass connections, PVC body/housing

Cat No.	Description	Colour	Pack Size
