

EVSE TESTING KITSET

- EVC-TESTING-KIT-XA

EVC-TESTING-KIT-XA

The TransNet EVC-TESTING-KIT-XA includes all the accessories you need to connect your MI3100BSE multifunctional installation tester to an EVSE to complete testing on it.

The main component of the kit is the A1532-XA-T2 EVSE adapter which is used for verification of electrical safety and functional testing of EVSE. It is intended for testing Mode 3 EV supply equipment with a type 2 connector.

The XA version supports 3ph load testing up to 13A and different error types, including PE open. All components in this kitset have been chosen for their accuracy, quality and compatibility.

EVC-TESTING-KIT-XA CONTENTS

- A1532-XA-T2 – EVSE adaptor
- EVC-TESTING-ADAPTOR – Type 1 to Type 2 adaptor used for testing purposes only
- TNTT-EVSE – Test tags specific to testing of EVSE
- EVC-BAG – Hard shell storage & carry case for testing kit contents
