

MI 3202 GigaOhm 5 kV

5 kV Insulation and Voltage tester

- **Quick adjustment** - Five pre-set test voltages (250V, 500V, 1000V, 2500V and 5000V)
- **Fast charging** - 5mA current source for quick charging of capacitive loads
- **High safety level** - CAT IV / 600V for industrial applications
- **Large display** - LCD display with backlit for added comfort of use
- **High quality accessories** - Shielded test leads included in a standard set

GigaOhm 5kV is a high quality insulation and voltage tester with excellent price-performance ratio. Five test voltages up to 5kV and 1TΩ resistance measuring range cover most of the industrial and power distribution applications. User friendly design is assured with a large LCD display. A rugged carrying case provides mechanical robustness needed at the use in harsh environments.

TYPICAL APPLICATIONS:

- Rotating machines
- Transformers
- Cables
- High voltage generators
- Surge arrestors
- Measuring transducers

STANDARDS:

Instruments operation:
IEC/EN61557-2

Electromagnetic compatibility:
EN 61326 class B

Safety:
EN 61010-1 (instrument)
EN 61010-031(accessories)

5 kV

CAT IV
600 V

Technical Specification

INSULATION	
Test Voltage Range	250 - 5000 V
Measuring range	1 TΩ
Voltage steps	250 V, 500 V, 1 kV, 2.5 kV, 5 kV
Automatic discharge after test	yes
Short circuit / charge current	5 mA
Guard terminal	yes
Auto adjustment function	yes
Auto ranging	yes
Shielded test leads included	yes
VOLTAGE	
Voltage test AC/DC	up to 600 V AC and DC
ACCURACY	
Insulation	5 % +3d (to 1 TΩ), 10 % +3d (to 1 TΩ)
Voltage	3 % +4 V
DISPLAY	
Bar graph	yes
Backlit	yes
Graphic display	LCD
SAFETY AND PROTECTION	
IP	44
Safety category	CAT IV, 600 V
POWER SUPPLY	
Rechargeable batteries	Included
Built-in battery charger	yes
Low battery indication	yes
Battery life	4 h at 5 kV
DIMENSIONS	
Weight	3 kg
Dimensions	310 x 130 x 250 mm

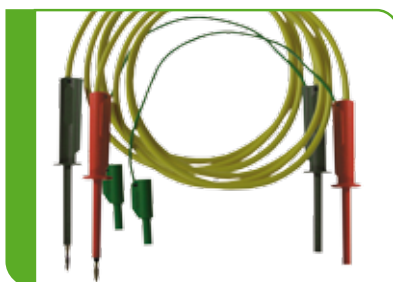

Handle and shoulder strap make the unit easy to carry

Large LCD screen with backlit

Straight forward and fast test adjustment

Shielded test leads 10 kV included in standard set

ORDERING INFORMATION

MI 3202

Standard set

Instrument GigaOhm 5 kV
Carrying bag
Mains cable
10 kV shielded test lead set, 2 m (black, red)
10 kV alligator set (black, red)
Test lead with alligator clip, 2 m (green)
6 x 1.2 V NiMH batteries
Handbook "Guide to modern insulation testing" on CD
Instruction manual
Product verification data

OPTIONAL ACCESSORIES

Photo	Order No.	Acc. decription
	S 2029	10 kV shielded test lead set, 8 m (black, red)
	S 2030	10 kV shielded test lead set, 15 m (black, red)
	S 2036	10 kV alligator set (black, red)
