

DESCRIPTION

Ryanfire Service Sleeves are a 140mm long high quality stainless-steel sleeve lined with a graphite infused rubber strip.

Service Sleeves are typically installed through fire rated walls around combustible service penetrations and will expand when exposed to heat.

The Service Sleeve will close up any gaps formed by the melting away of services and thereby prevent the spread of flame or hot gasses.

CERTIFICATION

Ryanfire Service Sleeves have been tested and assessed in accordance with AS1530.4:2014 and AS4072.1:2005 at IANZ/NATA accredited laboratories.

APPLICATION

Ryanfire Service Sleeves are installed within the wall and have also been used with the Ryanfire Naked Wall System. They are retro-fit capable and are able to be installed from single side access.

The Service Sleeve is suitable to protect uPVC pipes and HVAC bundles.

PRODUCT DIMENSIONS

Ryanfire Service Sleeves have been designed to fit most common services and come in the following sizes:

Size	40	55	65	80	110	125	160
Sleeve Inside Ø mm	45	57	68	85	110	125	170
Sleeve Outside Ø mm	58	68	85	105	140	150	205
