

## 3 WAY LINK PILLAR

### 3 WAY LV SWITCHING

#### KEY FEATURES

- 3 x Linked -Sector or Round Cable up to 240mm<sup>2</sup> (Potential for 300mm<sup>2</sup> )
- Safe and economical to install & operate
- Make / Break tested -100 x 100amps, then 10 x 400amps
- Tested up to 600A
- 2 Bolt connection on all mains and service cables
- Range taking up to 300mm<sup>2</sup> mains cable
- Fully insulated CAMLOCK link

The Tappat 3 Way Link Pillar has been designed to maximise flexibility when it comes to network balancing. The true 3 way linking abilities of the switch mean it can be used in most locations where switching up to 3, four core 240mm<sup>2</sup> sector or round cables with services is required.

Switching under load is easy with the Tappat Camlok links which can be installed and removed under load and are rated at 400A.

Each cable connection has a 2 bolt connection for peace of mind and installation is made easier with less cable bending needed for terminating the cores.

The unit is safer and more user friendly with each main core independently separated and installed and insulated by a transparent cover. Cross phasing is not possible.

**Customers can count on consistent, high quality products, driven by TE's proven innovation and backed by our extraordinary customer support.**

## TAPPAT UNDERGROUND LINK BOXES
