

# BLANK DUCT PLUGS

Mechanical duct plugs for sealing vacant conduits & innerducts

## KEY FEATURES

- All plastic construction – corrosion proof
- Water and air resistant
- Simple installation
- Ideal for manholes and building entrances

Loop Nut

Wing Nut

Inside Fit

**Kwikie™**  
Blank Duct Plugs

## Three styles of conduit duct plugs to effectively seal a variety of empty conduits

Kwikie™ Blank Duct Plugs are manufactured from a combination of high-impact plastic components and pliable, yet durable, gaskets. These mechanical duct plugs prevent the incursion of water and sedimentation into costly duct banks and raceway systems while also confining potential problems like dangerous vapors to their source.

Each blank plug features a rope-tie to secure pull-rope to the plug's back-compression plate. By attaching the rope to the back-compression plate, excess slack is readily at-hand for future use. Easily installed, or removed, they provide a simple and highly effective sealing solution.

Many of our sizes are JackMoon® certified cross-referenced for a seamless part number conversion.

### ABOUT TRANSNET NZ LTD.

At TransNet we offer a large range of products to the Electrical Distribution, Transmission, Rail, OEM and Wholesale industry.

This 100% privately owned New Zealand company has been providing high quality products throughout New Zealand and the Pacific for more than twenty years and is leading the way with new technologies, diversity of products and added value propositions for our customers to continuously benefit from.

We have the expertise and knowledge to assist with equipment specification as well as providing hands on service and support in the field. With three stocking distribution facilities in Australasia, and 24 hour contact, TransNet is able to offer local support and fast delivery.

TransNet is one of the largest suppliers in Australasia, offering the most diverse range of high quality products to our industry. We have a switchgear workshop, an R&D workshop and a certified Raychem kitting room on site in our Auckland Head Office and we are well equipped to offer training and support for all our products.
